Fall 1954

The New Jersey Peach Council, Inc.

offers the

WHITE HALE

(U. S. Plant Patent No. 31)

a promising new peach developed at the New Jersey Agricultural
Experiment Station

White Hale

The Horticultural News, official organ of the New Jersey State Horticultural Society, contains timely information regarding new varieties, as well as other subjects of direct interest to fruit and vegetable growers. If you do not receive this valuable horticultural publication, write to the secretary of the New Jersey State Horticultural Society, Arthur J. Farley, New Brunswick, New Jersey, and ask for a sample copy.

DESCRIPTION OF THE WHITE HALE

The White Hale is an open pollinated seedling of J. H. Hale. It is a large, round, firm-fleshed, white peach ripening at about the same season as the J. H. Hale. The tree is more vigorous and free in growth than J. H. Hale. The flowers are of the medium type and self-fertile in contrast to its self-sterile seed parent. It develops more red skin color than Belle, the pubescence is shorter and it has superior shipping qualities. The edible quality is equal to or somewhat better than Elberta. It should be a better white peach than Belle to sell on a roadside stand with J. H. Hale because of its larger size, firmer flesh and more attractive color. The new variety tends to meet the demand for a white peach to follow Belle. It appears to be of about the same hardiness as J. H. Hale and Elberta and to succeed best upon well elevated sandy to sandy loam soils.

WHITE HALE PRICES

FALL 1934

F. O. B. Princeton, New Jersey

Grade	25 to 100	100 to 250	250 to 500	500 to 1,000

PLACING ORDERS

All orders for White Hale should be sent to the New Jersey Peach Council, Inc., Box 278, Princeton, New Jersey. A deposit equal to 10 per cent of the total cost of the trees is required with each order and the balance before delivery. Orders will be filled in accordance with the date they are received. The grade specified in the order will be furnished unless the supply of trees of that grade is exhausted in which case another grade listed at the same price will be substituted.
